

Aggressive Disinfecting for COVID-19

Procedures

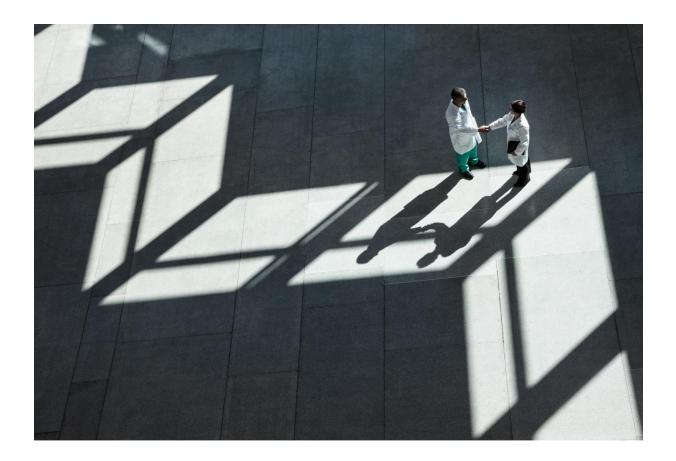

RUNEX ENTERPRISES

06/22/2020

Samuel Runsewe

Environmental and Safety Director

Please call for more information 925-584-1763

The Centers for Disease Control and Prevention is currently responding to the outbreak of respiratory disease caused by the new coronavirus which was first detected in China. While the virus is called **coronavirus**, the *sickness* that results after infection has been termed **COVID-19**.

COVID-19 has created a pandemic which is a global outbreak of a disease.

These procedures refer to the aggressive disinfectant for COVID-19. RUNEX ENTERPRISES offers a team of professionals, armed with Neutral hospital grade disinfectant (FDA Approved), a collection of different pump sprayers, misters, and fogging equipment. With our 30 years of commercial experience, We can handle any job from complete truck interiors, cargo areas of route trucks, warehouses, office buildings, conveyor belts, trailers, tractors, all freight (boxes), restaurants, schools, hospitals, medical and dental offices, nursing homes, fitness facilities, public restrooms and more!

We treat each service as if it has been confirmed exposure, thoroughly aggressively disinfecting.

We come in with our pump sprayers, misting and fogging equipment when the area is unoccupied so when staff comes in, you know that the area is completely disinfected.

The chemical has a 10-minute dwell time with no wiping required.

*Please click this link for some of our equipment that we use. ***
https://www.youtube.com/watch?v=Ag2Yt5qnHLc

Our Chemicals

This neutral, no-rinse sanitizing disinfectant is suitable for use in schools, hospitals, medical and dental offices, nursing homes, fitness facilities, and public restrooms.

At 2oz/gallon, it is a broad spectrum anti-bacterial, virucide and fungicide.

ES72 Hydrogen Peroxide Multi-Purpose Cleaner.

It is effective against **COVID-19** as well as Hepatitis B, Chlamydia, Herpes Simplex Type 1 & 2, MRSA, influenza, and HIV-1 and a variety of other diseases or bugs. ES64/ ES72 has a **10-minute dwell time**.

No wiping required.

Bleach is not part of this sanitizing/disinfecting process.

Personal Protective Equipment

- *Tyvek suits, Nitrile gloves, N95 Facemask and Face Shield Eye Protection must be worn while actively
 - working at sanitizing site.
- *DuPont Industrial & Scientific Tyvek 500 Xpert Elastic and Hood hazmat coverall Suit
- *Waterproof Slip Resistant Shoe Covers
- *Nitrile gloves Grainger part # 4T425
- *Anti Fog Face Shield eye protector
- *Full face Respirator

The Center for Disease Control (CDC) recommends deep cleaning of frequently touched surfaces such as counters, tablets, doorknobs, tabletops, light switches, bathroom fixtures, keyboards, toilets, phones, and tables. CDC's also mentions guidance for commercial spaces include but not limited to:

- Offices
- o Bathrooms
- Elevator Cars
- Retail Spaces
- Stair Handrails
- Sales Counters
- Sales Counters
- Shelving/Racks
- Water Fountains
- Carpets and Rugs
- Fitness Equipment
- Kitchen/Food Areas
- Schools/Classrooms
- Playground Equipment

We DEEP CLEAN all previously mentioned areas

We scrub all the high contact areas with Industrial disposable paper towels instead of towels. Prior to intensive disinfecting with our pump sprayers, misters and foggers, *Neutral Disinfectant 64*, which is an EPA registered quat-type cleaner, depending on the type of surface.

Foggers are our last line of defense. After all other surfaces have been treated, we finish up with our foggers to contact every surface in the area as well as the airspace. Foggers can also prevent puddling of liquid on surfaces with the benefit of the dwell time for effective disinfecting.

CROSS CONTAMINATION IS AVOIDED BY:

- -Quaternary ammonium Germicides.
- -Temperature check before each shift.
- -Full PPE worn by crews.
- -Touch free disinfecting.
- -Industrial disposable paper towels

Sanitizing

We use a pump sprayers, misters and foggers with *Neutral Disinfectant 64*, a broad spectrum anti-bacterial virucide fungicide to saturate all previously mentioned areas. It has a 10-minute dwell time. No wipe/rinse down required per Manufactures requirement.

1. PRODUCT AND COMPANY IDENTIFICATION

Product Code: MORGAN-396-BULK
Product Name: Neutral Disinfectant 64

Company Name: Morgan-Gallacher, Inc. Phone Numbe

8707 Millergrove Drive +1 (562)695-1

Santa Fe Springs, CA 90670

Emergency Contact: CHEMTREC +1 (800)424-9

2. HAZARDS IDENTIFICATION

Acute Toxicity: Oral, Category 4
Skin Corrosion/Irritation, Category 1A

Serious Eye Damage/Eye Irritation, Category 2A

GHS Signal Word: Danger

GHS Hazard Phrases: Harmful if swallowed.

Causes severe skin burns and eye damage.

GHS Precautionary Phrases: Keep out of reach of children.

Read label before use.

Do not get in eyes, on skin, or on clothing. Do not breathe dust/fume/gas/mist/vapors/spray.

Wash hands thoroughly after handling.

Wear protective gloves/protective clothing/eye protection.

GHS Response Phrases: IF ON SKIN (or hair): Remove/take off immediately all contam

with plenty of water for 15 minutes.

Get immediate medical advice/attention.

IF INHALED: Remove victim to fresh air and keep at rest in a

breathing.

If experiencing respiratory symptoms: Get immediate medical IF IN EYES: Rinse cautiously with water for several minutes. I present and easy to do. Continue rinsing for 15 minutes.

Get immediate medical advice/attention.

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

Get immediate medical advice/attention.

GHS Storage and Disposal

Phrases:

Dispose of contents/container in accordance to local, state an

OSHA Regulatory Status: This material is classified as hazardous under OSHA regulatio

Inhalation: Harmful if inhaled. May cause respiratory tract irritation.

Skin Contact: May cause a burning sensation of the skin. May be harmful if a

Eye Contact: May cause eye irritation and burns.

Ingestion: May be harmful if swallowed. May cause gastrointestinal irritat

COMPOSITION/INFORMATION ON INGREDIENTS

CAS# Hazardous Components (Chemical Name) Concentration

7173-51-5 1-Decanaminium, N-Decyl-N,N-dimethyl-, chloride < 3.0 % 68424-85-1 Quaternary ammonium < 2.0 %

compounds, benzyl-C12-16-alkyldimethyl,

chlorides

4. FIRST AID MEASURES

Emergency and First Aid

Procedures:

In Case of Skin Contact: Flush skin with plenty of water. Get medical aid if irritation develops or persists.

Flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and In Case of Eye Contact:

lower eyelids. Remove contact lenses, if present and easy to do. Continue rinsing. Get

medical aid immediately.

In Case of Ingestion: Do NOT induce vomiting. Never give anything by mouth to an unconscious person.

Rinse mouth with water. If victim is conscious and alert, give 2-4 cupfuls of water. Get

medical attention immediately.

Note to Physician: Treat symptomatically and supportively. Show this safety data sheet to the doctor in

attendance.

5. FIRE FIGHTING MEASURES

No data Flash Pt:

LEL: No data. **Explosive Limits:** UEL: No data.

Autoignition Pt: No data.

Suitable Extinguishing Media: Use water spray, dry chemical, carbon dioxide, or chemical foam.

Fire Fighting Instructions: As in any fire, wear a self-contained breathing apparatus in pressure-demand,

MSHA/NIOSH (approved or equivalent), and full protective gear. Use water spray to

keep fire-exposed containers cool.

Flammable Properties and

Hazards:

No data available.

Hazardous Combustion

No data available.

Products:

6. ACCIDENTAL RELEASE MEASURES

Protective Precautions, Protective Equipment and **Emergency Procedures:**

Use proper personal protective equipment as indicated in Section 8.

Environmental Precautions: Do not let this chemical enter the environment. Avoid runoff into storm sewers and

ditches which lead to waterways. Clean up spills immediately, observing precautions in

the Protective Equipment section.

Steps To Be Taken In Case Material Is Released Or Spilled:

Provide ventilation. Do not get water on spilled substances or inside containers. Absorb spill with inert material (e.g. vermiculite, sand or earth), then place in suitable container.

7. HANDLING AND STORAGE

Precautions To Be Taken in

Handling:

Do not get in eyes, on skin, or on clothing. Do not ingest or inhale. Keep container tightly

Precautions To Be Taken in

Storing:

Store in a cool, dry, well-ventilated area away from incompatible substances. Store in a

tightly closed container.

Page: 3 of 6 Printed: 07/03/2019 Revision: 07/02/2019

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

CAS# Partial Chemical Name OSHA TWA **ACGIH TWA** Other Limits 7173-51-5 1-Decanaminium, No data. No data No data. N-Decyl-N,N-dimethyl-, chloride Quaternary ammonium No data. No data. No data. 68424-85-1

LC50, Rainbow Trout (Oncorhynchus mykiss), 923.2 PPB, 96 H, Mortality. LC50, Striped Bass (Morone saxatilis), fry, 14100. UG/L, 96 H, Mortality.

Effective concentration to 50% of test organisms., Green Algae (Chlorella pyrenoidosa),

Exponential Growth Phase, 670.0 UG/L, 96 H, Population.

Persistence and Degradability: No data available.

Bioaccumulative Potential: No data available.

Mobility in Soil: No data available.

13. DISPOSAL CONSIDERATIONS

Waste Disposal Method:

Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. US EPA guidelines for the classification determination are listed in 40 CFR Parts 261. Additionally, waste generators must consult state and local hazardous waste regulations to ensure complete and accurate classification. Observe all federal, state, and local environmental regulations. Contact a licensed professional waste disposal service to dispose of this material.

List N: Disinfectants for Use Against SARS-CoV-2 | Pesticide Registration | US EPA

An official website of the United States government.

Close

We've made some changes to EPA.gov. If the information you are looking for is not here, you may be able to find it on the EPA Web Archive or the January 19, 2017 Web Snapshot.

List N: Disinfectants for Use Against SARS-CoV-2

Other COVID-19 Resources

- EPA's Coronavirus Site
- CDC's Coronavirus Disease 2019 Site CDC's Cleaning and Disinfection Recommendations for COVID-
- NPIC 's COVID-19 Virus Factsheet

All products on this list meet EPA's criteria for use against SARS-CoV-2, the virus that causes COVID-19.

Finding a Product

The easiest way to find a product on this list is to enter the first two sets of its EPA registration number into the search bar below.

For example, if EPA Reg. No. 12345-12 is on List N, you can buy EPA Reg. No. 12345-12-2567 and know you're getting an equivalent product. You can find this number by looking for the EPA Reg. No. on the product label.

Using Other Products

If you can't find a product on this list to use against SARS-CoV-2, look at a different product's label to confirm it has an EPA registration number and that human coronavirus is listed as a target pathogen.

Follow the Label

When using an EPA-registered disinfectant, follow the label directions for safe, effective use. Make sure to follow the contact time, which is the amount of time the surface should be visibly wet, listed in the table below.

These products are for use on surfaces, not humans.

Additional Resources

- · Still have questions? See our FAQs about this list.
- . My company has a product it would like included on this list

Note: Inclusion on this list does not constitute an endorsement by EPA. Additional disinfectants may meet the criteria for use against SARS-CoV-2. EPA will update this list with additional products as needed.

List N was last updated on April 2, 2020.
